### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. This communication is in response to the amendment filed June 20, 2007.

***Status of Claims***

2. Claims 1-8 are pending. Claims 1-8 have been amended. Claims 1-8 have been examined.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 2 recites the limitation "the transaction form" in the third operation of the program (see last line). There is insufficient antecedent basis for this limitation in the claim. Appropriate correction is required.
5. Claim 6 recites the limitation "the transaction form" in the second operation of the program (see last line). There is insufficient antecedent basis for this limitation in the claim. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 3691

7. Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Lilly et al., Pub. No. 2002/0156723 (hereinafter Lilly).

**Examiner's Note:** The Examiner has pointed out particular references contained in the prior art of record within the body of this action for the convenience of the Applicant.

Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may apply. Applicant, in preparing the response, should consider fully the entire reference as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior art or disclosed by the Examiner.

The limitations of claims 2-8 are equivalent to the limitations of claim 1; therefore the claims have been grouped together.

As to claims 1-8, Lilly discloses the following limitations for a credit card management method, program, device and computer readable recording medium (see Abstract and para. 0034) comprising:

- receiving credit card identification information and store identification information as well as a credit amount (para. 0078-0080);
- extracting a transaction type corresponding to the store (i.e. vendor) identification information (para. 0086) from a first storing unit (e.g. central database; para. 0044 and 0056) which stores the transaction type corresponding to the store

Art Unit: 3691

identification information, the transaction type being either one of a service request from a store terminal or a service request from an Internet store server (para. 0078-0080);

- extracting credit card identification information and a credit limit corresponding to the transaction type from a second storing unit (e.g. central database; para. 0049) which stores the credit card identification information and the credit limit corresponding to the transaction type (e.g. "card issuer 422 may determine which bucket the purchase at site 414, 416 and 424, is to be applied"; para. 0088); and
- making a determination as to whether the credit amount is within the credit limit (para. 0089).

### ***Response to Arguments***

8. Applicant's arguments with respect to claims 1-8 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3691

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
